Best Copy and Printing, Inc. (via e-mail)

Annual 47 C.F.R. § 64.2009(e) CPNI Certification
EB Docket 06-36

Annual 64.2009(e) CPNI Certification for 2007

Date filed: February 29, 2008

Name of company covered by this certification: Fiber Technologies Networks, L.L.C.

Form 499 Filer ID: 821688

Name of signatory: Charles Stockdale

Title of signatory: Vice President and General Counsel

I, Charles Stockdale, certify that I am an officer of the company named above, and acting as an agent of the company, that I have personal knowledge that the company has established operating procedures that are adequate to ensure compliance with the Commission's CPNI rules. See 47 C.F.R. § 64.2001 et seq.

Attached to this certification is an accompanying statement explaining how the company's procedures ensure that the company is in compliance with the requirements set forth in section 64.2001 et seq. of the Commission's rules.

The company has not taken any actions against data brokers in the past year nor have any pretexters attempted to access CPNI.

The company has not received any customer complaints in the past year concerning the unauthorized release of CPNI.

SIGNED 

Charles Stockdale
Vice President and General Counsel,
Fibertech Networks, LLC, the sole member of
Fiber Technologies Networks, L.L.C.

FIBER TECHNOLOGIES NETWORKS, L.L.C.
STATEMENT OF CPNI COMPLIANCE PROCEDURES

Fiber Technologies Networks, L.L.C. ("Fibertech") builds and operates fiber optic networks throughout mid-size cities in the Eastern and Central regions of the United States.

As part of its CPNI compliance program, Fibertech provides regular written CPNI notices to all customers and obtains approval from all customers to use CPNI for marketing purposes. Fibertech's CPNI notices explain the customers' CPNI rights in accordance with the FCC's CPNI Rules, including their right to restrict the use and disclosure of, and access to their CPNI. These notices also provide information on how customers can choose to not receive marketing from Fibertech that is based upon the company's use of their CPNI. In this regard, Fibertech provides existing customers with the ability to change or rescind their consent to the company's use of their CPNI at any time.

While Fibertech does not currently use CPNI to market communications-related services outside of those services to which a customer already subscribes, it may do so in the future, but only where the customer has granted approval pursuant to instructions in the CPNI notices. Fibertech maintains records of customer approval and the delivery of its CPNI notices for at least one year.

Fibertech has implemented a system by which the status of a customer's CPNI approval can be clearly established prior to the use or disclosure of that customer's CPNI. Specifically, Fibertech maintains records for tracking CPNI restricted accounts. Unless, as discussed below, a one-time approval of CPNI is obtained, Fibertech representatives who market using CPNI, review this database and refrain from marketing to customers with a CPNI restricted account.

In accordance with the CPNI rules, upon obtaining a customer's oral authorization, customer service representatives of Fibertech may access a customer's CPNI during the course of an inbound or outbound telephone conversation, solely for the duration of that conversation. Each such Fibertech representative must provide the disclosures required by 64.2008(f) of the CPNI rules including informing customers of their right to deny access to the CPNI before requesting this one-time consent.

As permitted by the CPNI rules, Fibertech may use CPNI without customer approval (1) to bill and collect for services rendered; (2) to protect the rights or property of Fibertech, other users or other carriers from unlawful use; (3) to provide customer premises equipment and protocol conversion; (4) to provision inside wiring, maintenance and repair services; and (5) to market services formerly known as adjunct-to-basic services, such as, but not limited to, speed dialing, computer-provided directory assistance, call monitoring, call tracing, call blocking, call return, repeat dialing, call tracking, call waiting, caller I.D., call forwarding, and certain Centrex features.

In certain limited circumstances, Fibertech may share CPNI with third parties that refer customers to Fibertech. In these instances, the third parties may have access to CPNI in order to confirm commission payments that are owed by Fibertech to the third parties. These third parties are contractually prohibited from using CPNI for any marketing purposes and are required to

maintain the confidentiality of CPNI and to implement protections to ensure the confidentiality of any Fibertech customer's CPNI.

Fibertech maintains a record for at least one year of its own and, if applicable, affiliates' sales and marketing campaigns that use customers' CPNI. A supervisory review process to ensure any marketing campaigns are consistent with the FCC's CPNI rules has been established by Fibertech. This process includes a periodic review by the company's senior marketing personnel who are responsible for approving any proposed outbound marketing requests that would require customer approval.

Fibertech has implemented procedures whereby it will not provide CPNI without proper customer authentication on inbound telephone calls. All Fibertech customers have dedicated account representatives who serve as the primary customer contact and all customers have contracts that include provisions addressing the protection of CPNI. Fibertech does not collect, use or maintain call detail information from its customers and does not provide online account access for any customers.

All Fibertech employees who have access to CPNI receive training about CPNI compliance. Specifically, all new employees are provided with CPNI training at new-hire orientation. Moreover, Fibertech maintains a written CPNI Policy and Procedure Handbook and all Fibertech employees are required to acknowledge in writing that they have read and understand the information in the CPNI Policy and Procedure Handbook. All Fibertech employees are required to maintain the confidentiality of all information, including customer information that is obtained as a result of their employment by Fibertech. Employees who do not abide by these policies or otherwise permit the unauthorized use or disclosure of CPNI will be subject to discipline, including possible termination.

Fibertech has implemented procedures that conform with the relevant FCC rules to inform customers when their address changes. In addition, Fibertech has implemented procedures to provide law enforcement with notice should a breach of CPNI occur. After notifying law enforcement and unless directed otherwise, Fibertech will notify affected customers and will maintain a record of any CPNI-related breaches for a period of at least two years as required by the applicable FCC CPNI rules.
